Water Bonds Win by Close Margin Here

Two Votes to Spare for Measure Insuring Future Water Needs

East Side Shows Substantial Majority in Favor of All Issues

By the narrow margin of two votes the \$130,000 water bond issue was carried at Tuesday's election. Both pool bond proposals were defeated.

The vote on the water bonds stood 486 to 240. If three of the affirmative votes had been changed to negatives, the water bonds would have gone the way of the pool bonds.

The hard work and organized effort of the canyon people in behalf of their pet pool project was reflected in the voting, the total being 397 for and 300 against. On the \$30,000 Grand View pool the vote was 323 for and 350 against.

Other factors apparent in the campaign were clearly shown in the tabulation of the vote. The most potent was the resentment of many west end residents over their Sunnyside storm drain assessments. In addition there was the quiet work of a small group, chiefly west side residents, whose investigations led them to oppose the water bond program, although, with a single exception, not publicly.

Considering general business conditions, the present year was recognized as a poor time to submit bond issues of any kind. Probably a majority of municipal and school bond issues submitted within in recent months have been voted down. The fact that Sierra Madre rendered a favorable verdict on the water bonds indicates that the people generally are determined to provide for the city's basic needs and make provision for future development.

Swimming pools being considered by many as in the luxury class could hardly be expected to carry under all the circumstances. The question of whether or not either of the pool projects would have carried if submitted alone is one upon which opinion is widely divergent, but generally adverse.

There is no doubt that the efforts of the canyon people to get out the vote for their pool helped the other propositions also. On the east side the water bonds received 81 per cent of the vote cast and the canyon pool received only 72 per cent. The Grand View pool received 52 per cent.

On the west side the water bonds received only 55 per cent, the Grand View pool 44 per cent, and the Canyon pool 43 per cent. "Single-shotting" in favor of the canyon pool, which might have been expected in the canyon district, was especially noticeable in the west side vote count. Many ballots marked in favor of the canyon pool either opposed the two other propositions or did not vote on them.

Proposition	West	East	Total
\$130,000 Water	Yes 214	272	486
Bonds	No 176	64	240
\$30,000 Grand View	Yes 164	159	323
Pool	No 206	144	350
\$7,000 Canyon	Yes 161	236	397
Pool	No 208	92	300

R. M. Finlayson returned home on Monday from Detroit where he attended the convocation of the Knights Templar. He was one of the drill team of Monrovia Commandery which made an excellent showing in the national competitive drill, although not within the prize list. The Monrovia team attracted considerable attention because of the commandery being the smallest represented in the competition. Mr. Finlayson says the heavy Knight Templar uniform and the July weather furnished at Detroit are not what he would call an ideal combination. He is now at work on the plans for the new News building to be erected by C. S. Kersting as soon as the contract can be let.

DISAPPOINTED MARINE REPTILE FOUND IN SIERRA MADRE YARD

An 11-inch turtle, probably lured to Sierra Madre thru publicity concerning the two swimming pool bond issues, was found the fore part of the week wandering rather aimlessly about the yard of a Sierra Madre home.

Apparently stunned by the fact that the two pool bond issues had been defeated and that any water it secured here would have to come out of a faucet, the turtle has so far failed to say anything that would lead to the discovery of his, her or its owner.

The party who found the wandering denizen of the deep despaired of getting a coherent statement from the visitor and has taken recourse to the News want column in the hope of finding the owner—if any.

Palms Show Good Growth In Arboretum

Deer Cause Slight Damage to New Plantings in Bailey Canyon

The Kentia palms, planted in Bailey Canyon Arboretum this spring, are thriving moderately well, despite the lack of shade. Other trees, notably several pines and a Jacaranda, are doing famously and will add greatly to the beauty of the canyon in a few years. W. R. Humphries is carrying water to the trees at intervals, and it is safe to state that any growth made by the recent plantings is due to his unremitting care.

Examination of some of the palms discloses that some of the leaves have been nipped by deer which have come down from the mountain sides because of the extreme dryness this summer in the higher altitudes. However the damage from that source is slight.

Water flowing in a small rivulet from one of the tunnels in the canyon, and over the falls, bears evidence that if the water in the canyon were conserved, there probably be enough to keep the new plantings well watered, as well as provide moisture for the many fern beds which line the canyon walls.

Local Scout Plans to Be Discussed

Meeting Is Called for Next Thursday Night In Park House

In an effort to arouse more interest in Boy Scout work in Sierra Madre a meeting has been called at the Park House next Thursday night, August 2. All who are interested in boys and boy welfare work are invited to attend.

The following letter has been sent out by R. E. Steinberger, commander of Sierra Madre Post of the American Legion, but the invitation is not limited to individuals receiving the letter:

Dear Sir: There is to be an important meeting in the form of a "round-table" discussion at the Park House, Thursday evening, August 2nd, at 7:30 o'clock. This meeting, which you are urged to attend, is in the interest of increasing the efficiency of the work of the Boy Scouts of America in Sierra Madre. At the present time we have only one troop in Sierra Madre, with 30 Scouts.

Please come to this meeting with constructive suggestions. We will have with us Tallman H. Trask, Scout executive, and Herbert C. Emery, a member of the local council board of directors. Plan to be with us—the meeting will adjourn early. Scoutfully yours, R. E. Steinberger.

Plans for the future of traffic occasionally take the pedestrian into consideration, doubtless on the theory that a few of the species are destined to survive.—Portland Oregonian.

It is estimated that 8 per cent of national energy could be saved if all salary checks were sent direct to the installment people.—Publishers Syndicate.

Sciots Band of Pasadena In Fine Concert

Large Audience Grooms Visiting Artists at City Park Program

Band Is One of Best On the Coast—Has Won Many Contests

The largest gathering of Sierra Madre people this season greeted the band of Pasadena Pyramid No. 44 when that organization and the Lybian Guard appeared Friday night in concert and exhibition drill.

The two organizations from the Pasadena Order of Sciots arrived in the city about 7:30, formed in line of march at the city hall and proceeded to the city park when the program was given. The Lybian Guard marched directly to the tennis courts, and staged an exhibition drill that proved highly interesting. Under the able command of Captain Murphy the body performed many intricate maneuvers, justifying the reputation that preceded them as winners of many drill contests in the state.

The band began its concert at about 8 o'clock and under the direction of E. P. Melvin presented a program of popular and classical selections. The best liked number proved to be "Stradella" overture, by Flotow. This difficult number was played in a manner that proved the band's complete mastery of the heavier type of band music. The instrumentation proved adequate and most complete, a set of tympani being used to splendid advantage.

The Sciots Band has won several contests with this number, each section of the big fifty-five-piece band doing full justice to its part. It was a splendid example of Mr. Melvin's ability as a director.

Workers assisting C. L. Twycross, master of the Sierra Madre Masonic lodge, with refreshments after the concert were, Mrs. C. L. Twycross, chairman; Mrs. Agnes Tyree, Mrs. B. F. Stinson, Mrs. Hortense Hill, Miss Elizabeth Steinberger. Many ladies of the city contributed delicious cakes, to which the visitors did full justice. Sandwiches, olives, pickles, coffee and the cakes constituted the menu. Several of the bandmen were accompanied by their wives who were also guests at the after-the-concert spread.

A. F. Hamill, toparch of the Pasadena Pyramid in a letter to W. R. Humphries, chairman of the committee sponsoring the open-air park programs, states the impression gained by the visitors as follows:

Dear Mr. Humphries: Your favor of July 21st just received with the clipping from your local paper. Please accept my thanks for your sending this clipping to me on behalf of Pasadena Pyramid No. 44 Ancient Egyptian Order of Sciots.

Please accept my thanks for the splendid reception extended to our band and Lybian Guard. We appreciated this opportunity of tendering a concert to your citizens, also giving the exhibition drill and we trust that you all enjoyed this entertainment as much as we did.

May I also express our appreciation for the lunch that was prepared for those who participated in the pleasure of the evening, and we will all look forward to coming back and seeing you at some time later in the year if it suits your convenience. Yours very truly, A. F. Hamill.

Miss Marion Solary was among the guests at an "athletic" party given in the gardens of the J. H. Schneider home, 325 West Foot-hill Boulevard, Altadena, Tuesday. A delicious picnic supper was served at 7 o'clock.

Baby Clinics Will Continue Through Summer Months

Baby clinics will be continued throughout the summer, on the first and third Thursdays of each month, according to announcement of Miss Cassanjan, acting municipal nurse. The next clinic will be held on Thursday, August 2, in the Park House as usual.

Mrs. George F. Blakelee, 461 West Live Oak Avenue, is in Carson City, Nevada, where she was called because of the serious illness of her mother.

Newly Organized Band to Give Concert Soon

The summer concert series for the present season would hardly be complete without a concert by Sierra Madre's own band. At least that is the opinion of Director Leland Auer, James Hawks, T. M. Webster, Frank Hildebrandt, E. H. Keegan and other members of that newly formed organization.

At the regular rehearsal last Monday night work was begun on several numbers which will be used on a program which will in all probability be presented about the last week in August.

Several members of the band have not played for several years and it will be a matter of some weeks before they begin "hitting on all eight." The younger members, recruited from high school bands and orchestras are in better trim to start out, but they will have to keep going "in high" if they maintain their lead over the old-timers.

The band now has a membership of about fifteen, with four or five other local musicians expected to attend the rehearsal at the park house Monday night.

Sunday Fire Alarm From Smoking Log

Smoke from Burned Area Puts Fire Fighters on the Alert

Persistence of danger from a mountain brush fire was well illustrated Sunday afternoon when a column of smoke was seen rising from the area on the mountain side which was burned over the preceding Sunday. At first there was just a thin wispy, white smoke and died down at intervals. Toward evening with a stronger breeze blowing the volume of smoke became larger. It came from a source very near the top of the old burn, causing alarm in many quarters lest it get into the brush a short distance away.

First reports were brought by hikers to Victor Hill who was checking traffic and giving out fire warnings at Corum's Park on Sturtevant Trail. He succeeded in locating Fire Guard Meager at the Little Gray Inn and he made a quick trip down the trail, and over to Mt. Wilson trail. The little black pony climbed the mountain side like a deer and the fire guard found a 30-foot log ablaze and causing all the commotion.

Meager was quickly followed by a squad of Sierra Madre firemen and others on foot, ready to lend their aid in stopping the next fire before it could get started. These were Joe Swanson, Steve Petzel, Vernon Udell, Robert Babbitt, Edward Bayard and Louis Stoepel. Axe and shovel soon had the burning log quiescent and smothered beyond further danger.

During the period while the smoke column was under scrutiny many experienced fire fighters recalled that the worst fires that have swept the Sierra Madre mountains, including the San Gabriel and Tujunga fires of a few years ago, have been outbreaks from fires supposedly extinguished. They could not help wondering if this was to be a repetition, starting several days after the original fire had been pronounced "safe." Smoldering logs, brush roots and the like are not at all popular with the boys who do the real fire fighting.

May Organize 'Hard-Ball' Team For Next Year

The success of the Sierra Madre twilight ball team in the Monrovia League has given impetus to a movement to secure a plot of ground large enough for "hard-ball" games next summer and, according to C. B. Scott, plenty of co-operation can be secured from neighboring towns to insure the success of such a venture.

Several towns in the valley support semi-professional teams of high calibre, most of them playing on Saturday afternoon. Instead of paid admissions at the gate, it is the general practice to take up collections and such is the interest taken by the fans that the teams are self-supporting.

Mr. Scott, who is well known in base ball circles in the valley, states that an endeavor will be made soon to secure the grounds in order that a team can be put in the field early next spring.

Draft Bill To Equalize War Burden

Kiwanis Club Hears Strong Appeal for Statute by E. Neal Ames

Provisions of Bill Believed to Be Effective Peace Measure

The universal draft bill, pending before congress, was the topic of a fine address given at Tuesday's Kiwanis luncheon by E. Neal Ames, Pasadena attorney. Mr. Ames, who was introduced by George Norris, has been asked by National Commander Spafford of the American Legion, to assist in educational work in behalf of the bill.

The bill, which is one of the chief parts of the American Legion peace program, was approved by President Harding and by President Coolidge, and its enactment is to be pressed during the next session of congress. Ames, who entered the war as a private and returned as a commissioned officer, thus explains the measure:

"The Legion has determined that a law shall be enacted that will prevent profiteering in any future war. Under this law the entire man-power of the country, without stint or limitation, must be subject to the call of the country for military or industrial service, without distinction as to wage for similar classes of effort.

"There must be no exemption under the basic law. All the natural resources of the nation must similarly be subject to the call of the nation. Production must be continued as in peace time, and at peace-time prices. Prices must be so fixed that no one can profit by reason of the war, which profit would necessarily be at the expense of the men who wear the uniform and the people who pay the costs of war.

"The American Legion believes that no man or group of men should be allowed to coin into gold dollars the blood and sacrifices of the men who serve their country in time of war, and that by taking the profit out of war they have presented one of the greatest constructive programs for the maintenance of peace and the prevention of another armed conflict."

Specht Announces 'Get Acquainted' Sale for a Week

Specht's Economy Dry Goods Store is the new name of the store recently bought by Louis Specht of Chicago from R. G. McLellan. Mr. Specht has not only changed the name but has made radical alterations in the arrangement of the stock and fixtures.

The large stack of shelving which formerly occupied the center of the store has been placed along the west wall of the room. The display tables placed in the center give a clear vision all over the store, making the general impression more inviting.

Mr. Specht announces a "Get Acquainted Sale" to encourage Sierra Madre people to come in and get acquainted with him and his family. Some of the special offerings are set forth in an advertisement elsewhere in this paper. Since taking over the store he has been "sorting up" various lines and putting in new items to make the stock more complete and representative.

The French historian, Jacques Bainville, accuses Americans of being drunk with wealth. Some one must have been telling him about the speak-easy prices over here.—New York Evening Post.

Last Chance for Voters to Register For Aug. Primaries

Registration for the August primaries will close on Saturday. City Clerk Dietz, who is deputy registrar, says the last opportunity for voters to enroll at the city hall will be at 5 o'clock Saturday afternoon. At this election candidates will be nominated for United States senator, congressman, state senator and representative, and for county offices. Voters who have not registered since January 1 or who have changed their residence to another precinct since registering, must register in order to be eligible to vote.

NEWS WANT ADS GET QUICK RESULTS, SAYS McLELLAN

R. G. McLellan, who recently sold his department store to Louis Specht, dropped into the News office last Saturday and stated that he just wanted to let us know that the furniture he advertised for sale in last Friday's paper was practically all sold by 4 o'clock that day.

"You don't have to tell me that News advertising pays," remarked Mr. McLellan. "I know it does!" Mr. and Mrs. McLellan expect to leave soon for points in the east for a several months vacation, and they plan to return to California next fall.

Legionnaires Planning for State Meet

Delegation from Local Post to Attend Convention in Stockton

The tenth annual convention of the California Department of the American Legion, to be held in Stockton, August 13 to 15, inclusive, will assemble more California World War veterans in one place at one time than any event since the World War, according to Commander R. E. Steinberger of Sierra Madre Post. According to word received here from Stockton by Commander Steinberger between 9,000 and 10,000 Legionnaires will attend the big convocation.

Legionnaires are flocking to this year's convention in greater numbers than ever before mainly because an effort is being made to make of the convention a general celebration in observance of "Ten Years After."

Local Legionnaires who plan to attend should send in their reservations at once, according to Mr. Steinberger. Stockton hotels are to be taxed to the limit and the Stockton post has adopted a policy of "first come first served."

Among those from Sierra Madre who are planning to attend the convention are R. E. Steinberger, H. H. Steinberger, Ralph W. Stewart, Henry M. Olsen, George Hapgood and O. E. Emley.

Legion Will Sponsor Next Park Concert

Hollywood Celebrities to Appear If Fr. Ronan's Plan Is Successful

The park series concert for August 3rd, next Friday night, will be given under the auspices of Sierra Madre Post No. 297, American Legion. Father Ronan, chaplain of the post, is at the head of the committee in charge of the program arrangements, and while definite announcement is being withheld pending completion of the program, it is stated that a concert and entertainment of unusual merit will be presented.

Father Ronan has let it become known that he is expecting to secure the co-operation of a number of celebrities from the Hollywood film colony, and that the evening will be one long to be remembered.

Father Ronan's popularity, in the local post is based not only on his fine personality but on his ability to get things done, and consequently members of the post and their friends are looking forward to next week's concert with much pleasurable anticipation.

E. B. DeGroot, Scout Executive for Los Angeles, stated to W. R. Humphries, entertainment committee chairman, that if desired he would endeavor to secure the services of the Los Angeles Boy Scout Band for a program during the park series. Needless to say, the offer was immediately accepted and a date will in all probability be arranged soon and the famous Scout organization brought to this city. Special efforts will be made to entertain the Scouts, and a committee will be appointed later to take care of this feature.

Other programs are already in the course of preparation, and it begins to appear that the concert will be held weekly during the latter part of the season in order to provide dates for the various entertainments.

Recount on Water Bonds Is Demanded

Errors and Irregularities are Charged in Letter to Council

Bond Election Proposed in Effort to Beat Park Stage Plan

Recount of the ballots cast at Tuesday's bond election was demanded in a written communication filed with the city council at last night's meeting. The signers of the request were Willard A. Evans, W. B. Clark and D. F. Morton.

No details were given as to error or irregularities alleged. Mayor Thayer asked the men, all of whom were present, if they had anything to add to their brief letter. Mr. Morton said a recount would only serve to strengthen the validity of the bonds if the returns were found to be correct, on account of the narrow margin over the required two-thirds.

City Attorney Baker was absent on account of illness, so no one was in a position to say what procedure would be necessary to secure the recount. The opinion was unofficially expressed, however, that the council could not go back of the tally sheets submitted by the election boards. Any further action would require a superior court action brought by voters interested.

The council, accordingly, proceeded to canvass the returns and declare the water bonds carried and the two pool bond issues lost. The request for recount was then referred to the city attorney.

A lengthy petition opposing the erection of the proposed entertainment stage in the city park out of park funds was submitted by Mrs. Mary S. Howard, W. E. Craig and Dr. C. N. Barker who said there were 197 names signed to the petition.

Dr. Barker wanted to know if there were enough names signed to the petition to make a referendum valid, and said if not the group wanted to make it so. Councilman Belohlavek said there was no action pending which would be subject to a referendum.

The petition objected to the expenditure of \$6,000 on the park stage project without submitting it to popular vote; requested that this be determined by having a bond election; pointed out the advantage of having the entire amount available in this way for completing the building instead of having to build it piecemeal out of the annual park tax levy, and demanded that the present park fund be devoted first to completing of the original park plans by installation of roque courts, elaborate lighting system and street improvements along the Mariposa Avenue frontage.

After submitting the bond proposal as the better way to build the park stage, Dr. Barker indicated his confidence of being able to beat the project, which would thus require a two-thirds vote. He said he would be willing to pay the cost of the election if the bonds carried—provided the supporters of the project would pay the costs if defeated.

On motion of Councilman Myers the matter was referred to the committee of the whole and the council agreed to take no further steps without due notice to the petitioners.

W. P. Caley submitted a written protest against the amendment to the zoning ordinance which would prohibit maintenance of corrals for saddle and pack animals on his property at the foot of Mt. Wilson Trail which had been so used for forty years. None of the petitioners for the zone change was present and the matter was referred to committee of the whole for further consideration.

Vacation leave was granted J. E. Carpenter, superintendent of street and water departments, and J. C. Lauber, park superintendent. City Engineer Gierlich reported all but one needed easement secured and plans nearly completed for the improvement of Montecito Avenue between Baldwin and Auburn, Montecito Court running south from Montecito Avenue, and the alley running from the south end of Montecito Court to connect with Windsor Lane.

For the first time in many weeks the entire council answered to roll call, Mayor Thayer and Councilman Isaacs having returned from the east since the last regular meeting of the council.

Program of Hebrew Club Closes Year

Young Students of Educational Center Give Many Numbers

Closing of the first successful season of the Hebrew school conducted by the Hebrew Educational Center was celebrated by the teachers, pupils, parents and more than 100 guests. The program was given in the Woman's Club house on July 15.

The feature of the program was the play, "Honor Thy Father and Thy Mother," given by the following children: Mary Solnit, Celia Platt, Sadie Fordham, Richard Fordham, Leo Levitt, Sarah Cutler, Marion Rosen and Francis Gitman.

The following recited poems in Hebrew: Harold Keltz, a poem "Eretz Israel"; Moe Rosen, a poem, "Kosel Maaravi"; Harold Zeff recited a very long Yiddish poem, "Der Fremder," and little Jerry Rosenblatt, the son of Mr. and Mrs. Joseph Rosenblatt, a child of six years, recited an English poem, "Palestine."

Miss Rose Lowenhart, a young lady possessing a very sweet voice, entertained the people with various songs, and was accompanied at the piano by Miss Sylvia Rosenzweig. Miss Lowenhart was forced to give several encores.

Mr. W. Rothman, a member of the board of education, congratulated Mr. A. M. Tonnis, director of the center, for his achievements. Mr. M. Zeff, also a member of the board of education, thanked the teacher, Miss Frieda Tonnis, for her splendid work. Mr. A. Platt, president of Sierra Madre Hebrew Educational Center, expressed his great satisfaction with the results achieved in such a short time and invited the public to the dining room, where supper was served to all guests.

Dr. Eisler, the executive director of Los Angeles Kehillah, made an appeal for the building of a center. The response was remarkable. Messrs. Solnit and Shapiro were the first to contribute for this purpose the sum of \$500, others followed and the sum of \$1,062 was raised. It is hoped that in the near future Sierra Madre Jewish community will have a modern building to house all Jewish activities.

Warm Praise For Fire Aid Given Here

Splendid Cooperation by Citizens and Officials Is Appreciated

United States Department of Agriculture, Forest Service, Angeles National Forest, July 20, '28, Editor, Sierra Madre News.

Dear Sir: Information which has reached my office concerning the fire above Sierra Madre on July 15, prompts me to publicly mention the fine spirit of cooperation which was observed among the citizens of Sierra Madre and neighboring communities in extinguishing this fire. I am told that many fire fighters were in action on the fireline before the arrival of District Ranger Vetter and that many attacked the fire and returned by way of a canyon in which there was no timekeeper and their services were, therefore, voluntarily given. This spirit of helpfulness was not only exhibited by the men but by the women of Sierra Madre, many of whom volunteered their services for preparing food for the fire-fighters.

I wish also to commend the efficiency of the Sierra Madre telephone operator who put thru all of the numerous fire calls with noteworthy promptness and efficiency; often locating parties

whose exact whereabouts were not known at the time by the party calling.

Although the fire burned possibly 60 per cent of its area inside the city limits of Sierra Madre, it is nevertheless gratifying to know that the local residents of your communities are awake to the need of watershed protection and prompt in their support of any action toward fire suppression. The efficient leadership of Fire Department Chief W. D. Richards and our fire agents, E. H. Keegan of Sierra Madre, A. N. Coberly of Arcadia and H. A. Stevens of Monrovia, deserves a word of appreciation and this letter would not be complete without mention of the fine spirit of eagerness observed in the boys who found it difficult to restrain their ambition to get on the fire line although prevented because of their youth. We must count upon these for our future fire-fighters.

Very truly yours,
George H. Cecil,
Forest Supervisor.

BUCKEYES TO PICNIC
All who ever lived in Ohio are invited to meet for the great picnic reunion, all day Saturday, August 4, in Bixby Park, Long Beach. There will be a brief program at 2 o'clock. Coffee will be supplied.

INDEPENDENCE

IN 1876, one hundred years after the signing of the Declaration of Independence, the first telephone circuit was installed on the Pacific Coast. This marked the beginning of a new freedom—freedom from the bonds of distance.

For today, distance is not a barrier to the transmission of thought by speech. The last half century has seen the development of the telephone from small beginnings to a vast network of voice highways extending throughout the length and breadth of the nation.

From your own telephone you are within speaking distance of over 70,000 cities and towns throughout the United States and many points in Mexico, Canada and Europe.

To the boundaries of the nation and beyond—by telephone

ELECTRICITY

...the Most Adaptable Fuel in the World

Cook With It!

ELECTRICITY is the most adaptable fuel in the world. It heats the massive furnaces which produce all of our aluminum and finished steel; it melts the snow and ice from railroad switch points after heavy storms, or runs out along other wires to cook three meals a day on the spotless white range in some farm house. No other fuel in the world can be so accurately controlled. You have it concentrated under the dish of food you want to cook, or you have it shut up tight in thick-walled ovens. None of it is wasted in heating the air around the stove.

A little thermostatic regulator attached to the oven will let the current flow long enough to bring the oven temperature up to any desired point; then it will hold it at that point for the entire period of cooking.

The Modern Electric Range is a Fast Cooker, too

YOU CAN fry or broil, bake or roast with a speed equal or superior to any other method you are now using. If you have not already done so, come into the nearest Edison office and ask for a demonstration of one of the new models. You will be amazed at the low cost of cooking with electricity.

Society and Personal

Dr. and Mrs. G. W. Brockway of Phoenix, Arizona, are visiting at the home of their son, Marshall Brockway, and family, at 383 W. Central. Dr. and Mrs. Brockway arrived the fore part of the week via New Orleans, after an extended tour through various eastern states and then by steamer from New York to New Orleans.

Eight tables of bridge and 500 were played at the Ascension Parish House card party Wednesday evening. The high score bridge prize for ladies was won by Mrs. Fritz Roess, and for men by J. F. Brain. The other prize winners were Miss Katherine Matthews, Mr. and Mrs. W. L. Hibbs, Mrs. Carroll King and Mrs. Laura Baskins.

Mrs. C. C. Montgomery of Pasadena visited Sierra Madre friends Tuesday in the interest of her husband's candidacy for re-election to the superior court bench. Judge Montgomery was city attorney of Sierra Madre during his residence here.

Mr. and Mrs. Roy Pickett and family expect to leave next week for a visit with relatives in Kansas. Roy states that he is leaving his filling station full of gas and hopes to find it empty upon his return. They will make the trip via automobile.

Mrs. Stella Dennison and Mrs. Wesley Keough were joint hostesses at a bridge party Saturday evening at the home of the former. The affair was in honor of Mr. and Mrs. Joyner Cornes of Monrovia who are leaving soon on a motor vacation trip. Score cards and favors cleverly carried out the traveling motive; likewise the prizes which were awarded to Mrs. George Norris and Mr. Victor Hill for high scores and to Mrs. Robert Steinberger and Mr. Wesley Keough for consolation prizes. After the game a delicious buffet supper was served to Mr. and Mrs. Joyner Cornes, Mr. and Mrs. Victor Hill, Mr. and Mrs. Wesley Keough, Mr. and Mrs. George Norris, Mr. and Mrs. Robert Steinberger and Mr. Harvey Steinberger.

Mr. and Mrs. W. B. Temple have enjoyed a visit the past week from Mr. and Mrs. J. R. Haylor and two children and Mr. and Mrs. H. M. Haylor, of Oberlin, Ohio, who arrived in Sierra Madre last Friday. The gentlemen are brothers of Mrs. Temple and the two families are enjoying an extended motor trip through the west, and the coast states. As usual, the visitors are very favorably impressed with Sierra Madre.

W. B. Temple arrived home Thursday from Marysville, Kansas, where he was called by the illness and death of his father. Mr. Temple Sr. spent several months in Sierra Madre last winter, and left about six weeks ago for a visit at his old home in Marysville and other points in Kansas.

Mr. and Mrs. Oscar R. Jacobson are the proud parents of a baby girl, Claire Eline, born Friday, July 20th at the home of Mrs. Jacobson's parents, Mr. and Mrs. Samuel Mercer, 258 North Adams Street.

Miss Betty Moore is enjoying her vacation in Ellensburg, Wash., with relatives. She writes of a delightful trip from Wilmington to Seattle by boat.

Mr. and Mrs. Henry Isaacs returned home from a visit to their old home in Massachusetts Wednesday afternoon. They were accompanied by Mr. Isaacs' nephew, Russell Isaacs. Mr. Isaacs reports a very delightful trip. They shipped their Lincoln roadster to Detroit when they went east. From there they drove to Massachusetts, toured the New England states and drove all the way home. For the most part they followed an

easy schedule but on Tuesday they drove from Salt Lake City to Las Vegas and on Wednesday came the rest of the way home. In all their touring they did not have a single punctured tire.

Mr. and Mrs. C. Hall Perry and children have returned from Laguna Beach where they enjoyed outing while Mr. Perry was taking a vacation from his duties at the People's National Bank of Los Angeles.

Mr. and Mrs. C. W. McArthur returned Monday night from a two weeks' motor trip through the northwest. They drove to Seattle, and then east by way of Spokane to Coeur D'Alene, Idaho, where they visited Mr. McArthur's parents. On the way home they came down the Columbia River highway. They found many things of interest on their trip, including beautiful scenery and active logging operations. Mrs. McArthur is again on duty in the city clerk's office.

Children of the Plaza Community Home, with Miss Clarke and Miss Fuller in charge, went to Manhattan Beach on Wednesday to spend a week enjoying a beach outing. They were transported by Messrs. E. D. Burbank, R. S. Corlett, E. E. Bacon, F. H. Hartman and W. S. Hull, who, with their wives, went prepared to make a picnic of the days' trip.

John Kostecky and William McGrath of Dickinson, N. D., arrived in Sierra Madre this week in the course of a motor tour of the west. They found a big enough colony of Dickinson folk here to keep them busy visiting for several days.

Four happy sun-tanned Sierra Madre girls, Josephine Hare, Marlene Murray, Nancy Dickinson and Martha Sharp, returned Monday from Mar Casa at Balise, the Girl Reserve summer vacation camp. Six happy days were spent in boating, swimming, treasure hunts and beach suppers. Miss Elizabeth Bream, secretary Y.W. C.A., Pasadena, was in charge of the camp.

You can't always tell how long an "ad" in a newspaper keeps its advertising value. Two or three months ago a person inserted an ad in the News want columns. She was registered at the Sierra Madre Hotel, but left several weeks ago. However, Mr. Ball states that people are still calling for the person named in the advertisement, although it has not been in the News for several weeks.

Insurance Again Open to World War Veterans

The American Red Cross, thru its War Service Division, has notified Red Cross Chapters that World War Veterans may again apply for government insurance, and also for adjusted compensation, or bonus, if they failed to take advantage of these privileges when they were formerly open to them, states Miss E. Steinberger, secretary of the local Red Cross Chapter.

The privilege of applying for war risk insurance was withdrawn from the veterans on July 2, 1927, but a new law, the Johnson bill, was signed by the president May 29, and it entitles world war veterans who held the insurance, but let it lapse, to again apply for it, provided they are in good health. Applications for the bonus were closed Jan. 1, but the new law extends the time limit for applying for the bonus until Jan. 2, 1930. Of the more than 4,000,000 veterans entitled to the adjusted compensation, about one-half million failed to ask for it.

Sierra Madre Team In Second Place In Twilight League

Although the Sierra Madre twilight base ball team lost its last game in the first half of the league schedule, it came thru in second place with an average of .600. The fast Baker Drugs won the series without a defeat being charged against them. In Tuesday's game, last week, Pratt occupied the mound for the locals and chucked a five-hit game, being accorded perfect support by his team mates.

The second half of the league schedule opened last night with the Civic Club vs. Monrovia Laundry occupying the diamond. The schedule is as follows: July 26—Civic Club vs. Laundry. July 27—Presbytians vs. DeMolay. July 30—Presbytians vs. Gas Co. July 31—DeMolay vs. Exchange. August 1—Laundry vs. Baker's. August 2—S. M. vs. Presbyterians. Aug. 3—Civic Club vs. Gas Co. August 6—Presbytians vs. Ex. Club. Aug. 1—Gas Co. vs. Baker's. August 8—Laundry vs. DeMolay. August 9—Exchange vs. S. Madre. August 10—Bakers vs. Civic Club. August 13—Laundry vs. Presbytians. August 14—DeMolays vs. Bakers. August 15—Exchange vs. Gas Co. August 16—Sierra Madre vs. Lily. Aug. 17—Civic Club vs. DeMolay. Aug. 20—Presbytians vs. Civic Club. Aug. 21—Sierra Madre vs. Bakers. August 22—Exchange vs. Laundry. August 23—DeMolay vs. Gas Co. Aug. 24—Civic Club vs. S. M. Aug. 27—Sierra Madre vs. Gas Co. August 28—Bakers vs. Presbytians. August 29—Exchange vs. C. Club. Aug. 30—DeMolay vs. S. Madre. Aug. 31—Laundry vs. Gas Co. Sept. 3—Bakers vs. Exchange.

Coleridge Taylor's beautiful "Wedding Feast of Hiawatha" will be given at the Friendship Forum, Pasadena's natural sylvan theater, Friday, Saturday and Sunday evenings and Saturday and Sunday matinees. The theater is in the Arroyo Seco, near the La Loma bridge.

From the Old News Files

TWENTY YEARS AGO

Sierra Madre registered a vote of 137 to 11 in favor of the county road bond issue of \$3,500,000, the first project for a system of paved country roads.

The wedding of Philip W. Blumberg and Miss May McConnell took place on July 28 at the J. J. Hart home.

The Sierra Madre Telephone Co. of which W. E. Farman was manager, completed the new office building at the corner of Baldwin and Highland.

Mayor C. W. Jones appointed a committee to promote uniform street tree planting throughout Sierra Madre. The members were J. J. Hart, M. H. Bridle, A. S. Mead and E. W. Camp.

TEN YEARS AGO

J. D. Mackerras, civil engineer with wide experience in construction work, was appointed city engineer in charge of engineering, street and water departments by the city trustees.

Frederick Baker of Glendale

was appointed city attorney to succeed K. M. Ham, resigned.

Sierra Madre Canyon property owners presented what C. F. Gilmore described as one of the "periodical canyon petitions" asking relief from various conditions, including garbage collection and street lights. The city was also asked to take over the streets which were shown on the maps as privately owned lots, held by C. S. Mann. Mayor Mitchell pointed out that the streets were so held because the trustees had refused to accept them when the tract was laid out on account of the narrow streets and small lots.

Robert Carter was the newest Sierra Madre recruit, leaving to enter the service at Camp Fremont.

WHAT'S THE MATTER

"WHAT's the matter with our city government?"

That question has been asked many times, and was heard with added frequency during the late bond campaign.

Usually the person asking the question had an answer ready, touching some particular grievance which concerned him—the Sunnyside storm drain, the canyon road district; a high water bill; a piece of bad street; perhaps he saw some city employee working too deliberately or with too many bosses. Or maybe he just said taxes are too high, meaning the tax dollar is not well spent.

Most of these criticisms have some foundation in fact, some of them are very well founded. Even so, they only scratch the surface. And the remedies suggested, such as kicking out one or all of the city officials, are superficial and would not accomplish the desired result.

There is plenty of fault to be found with the city government in Sierra Madre. And the causes are basic rather than superficial. The remedy is not to be found merely in looking around for some better persons to fill particular positions.

City administrations come and go. And the average results are not greatly different. The real reason is in the form of government. The city is organized as a city of the sixth class under the state laws. Nobody ever devised a form of city government more effectively designed for inefficiency and waste.

In any efficient organization, public or private, there must be two things: Authority and responsibility. If you think there are such things in the government of Sierra Madre, just try and find 'em.

More later.

NEAR THE FUSION POINT

TWO Upland churches decided to get together on their vacation arrangements. So they took turns holding joint services. The Presbyterian minister preached in the Methodist church while the Methodist minister took a month's vacation. And then the Methodist minister preached in the Presbyterian Church while his colleague took a vacation.

Probably a casual visitor would not have known the difference unless informed of the arrangement. In all likelihood the stranger would not know which was the host denomination or to what sect either preacher belonged.

Those Upland people are treading dangerous paths. If they don't look out they may find they can work together better than they can apart!

HOW MANY CALLS

THE majority of sales managers agree that it takes at least five or six calls to convert a prospect into a customer, and at least a monthly call to keep his customer on the active ledger. A survey made by a retail dry goods association revealed the fact that eighty per cent of all sales are made after the fifth call.

The survey also showed that forty-eight per cent of the salesmen made one call and did not come back. Twenty-five per cent made two calls and quit. Twelve per cent made three calls, then threw up the sponge.

Ten per cent kept calling and made eighty per cent of the sales.

And then, there are some business men who declare advertising does not pay because they ran an ad once and it did not bring them a lot of business and keep it coming.

DISTINCTION

(Plymouth, Mass., Old Colony Memorial)

A MAN in a neighboring town remarked that if the newspaper man in any town knew how many knocks he gets behind his back he would adopt another calling. But the newspaper man does know, and has learned to accept. The successful editor is cordially hated by every law-breaker, hypocrite and swindler, every penny-pinching knocker on progress, and every political grafter. Oh yes, the editor knows it—and rather enjoys the distinction and the situation.

THE MENACE OF OUR MISTAKES

(Upland News)

LAST Sunday evening, taking back our sister to her home at Arcadia, a pillar-like cloud that rose over the top of the mountains, first admired as some of God's handwriting on the sky, proved to be smoke and fire from a forest fire north of Sierra Madre.

The tragedy of these forest fires and a lot of the other calamities of life is that the foolishness and carelessness of men makes them—or at least a big part of them. A cigaret thrown carelessly away may cost thousands of dollars. A desire to "beat the light" may break an arm or leg or take the life of a pedestrian.

Coming to Upland the other morning from Arcadia a look down the Santa Fe track near Duarte saved the life of the writer and his family. We heard no sound of a locomotive, not the slightest, yet just as we slowed down near the crossing and looked ahead, there shot across the crossing, almost like a ghost-like monster, the big engine pulling the "Chief," crack train of the Santa Fe. Why we didn't hear the faintest sound from that train we don't know, but we do know that if we had gone just 25 feet further without stopping you would right now be reading the obituary of the new editor and not some of his ramblings. Just that expensive are our mistakes—in front of merciless railroad engines. Eternal vigilance is the price of keeping on earth.

GOVERNMENT OF SELF

(Hemet News)

COMMENTING on the regiments of young men and women graduates from American colleges and universities, Dr. Glenn Frank says they constitute a kind of domestic immigration problem. They represent a fresh addition to the working life of the nation and must be assimilated. This assimilation will depend largely upon what the student brings to the state in the way of ideas, ideals and points of view.

The state hopes that the graduates will be worthy representatives of the spirit of genuine liberalism—a liberalism that means an honest facing of all the facts, a sustained skepticism of slogans and a willingness to give the other man the right to think differently.

The state hopes that the graduates will seek to practice and to perfect the art of self-government. Not self-government that is simply the mechanical voting scheme of majority rule. But self-government that is actually government of self, for finally political self-government will play a losing game unless its citizens practice self-government. The state would like to be rid of the necessity of playing nursemaid to its citizens through a thousand and one laws and regulations that would not be necessary if enough citizens realized that the heart of self government is the government of self.

The state has provided the education; it has the right to entertain these hopes.

Hooray! Mr. —ney licked Mr. —ney. Or if he didn't he should have. Now we know who's who, but what of it?

The News yesterday received a letter from a man in a southern city, saying: "Please put me on your mailing list. I am especially interested in your winter climate and hope to find suitable accommodations through your want ads."

Observations

(By G. B. M.)

Born in Lockport, N. Y.—when I came to that fact in the biographical sketch of J. J. Raskob I knew the sensations of a hunting dog striking a fresh trail. I knew just where I could get the low down on the new chairman of the Democratic national committee. All I would have to do would be to await a chance to talk with F. B. Seeley.

For Mr. Seeley was raised in Lockport. From the time he came out of the Union Army at the close of the Civil War until he retired from active business life to come to Sierra Madre and live near his daughter, Mrs. M. D. Welscher, a few years ago, I think he thrived on a diet of politics. Out there in western New York is one of the places in the country where they take their politics seriously. Between the Civil War and 1910 the western terminus of the Erie Canal saw a lot of political happenings. And Mr. Seeley could quote the words of the Apostle, "All of which I saw, part of which I was."

Sure enough, next time I saw Mr. Seeley, he had the situation analyzed in his usual succinct fashion.

"Raskob's no more of a Democrat than I am," he said. "Can you imagine anything funnier than that Democratic ticket—a wet candidate on a dry platform, with a Republican campaign manager?"

And then Mr. Seeley went on to tell of the things he knew of Raskob as a Republican. Yes, Raskob grew up there in the old home town and was a part of the organization. At one time or another he helped out liberally on Republican party finances. And now there are indications that some of those Republicans who are under obligations to him are going to help him try to swing New York into the Smith column. If you want some interesting personal sidelights on that Smith-Raskob combination, Mr. Seeley can furnish them. For distance and advancing years have not caused him to lose interest or get out of touch with what is going on back there.

HE'S MISSING SOMETHING

I don't know what kind of scenery Councilman Henry Isaacs is enjoying during his summer stay back there in New England. I'll grant some of it may be worth while. But I'll wager a gallon of the world's best drinking water out of Sierra Madre city means that he hasn't seen anything more gorgeously beautiful than the hibiscus hedge in front of his home place on East Alegria.

Time was when a single mature hibiscus shrub in full bloom was considered a rare sight. But here is a row of them two or three hundred feet long, high as one's head. Too much red, such as a great expanse of geraniums or bougainvillea, give me a pain in the optic nerve. But the mass of glossy green hibiscus foliage affords just the right setting for the gorgeous color of the big flowers.

"JUST AS GOOD"

Every few days the papers tell about somebody dying after taking an overdose of some medicinal concoction. Laughter is one medicine that has not been patented, and it is almost impossible to take an overdose.

Lack of water in the mountain springs and streams is driving the deer down from Angeles National forest into the foothills, and often in the early morning residents of foothill communities find the graceful animals near their homes. A tragic note was sounded recently when dogs surrounded a buck and doe near Altadena and killed the buck, which was trying to defend its mate from attacks by the dogs.

Bids on the construction of the San Gabriel Dam are expected to be called for within a few days, according to a statement made by Supervisor Wright before the Glendale Lions Club Tuesday.

Society and Personal

W. S. Hull left his desk at the Sierra Madre Hardware on Wednesday for his annual vacation. After his eastern trip of last summer he says he is going to confine his vacation rambles this year to places not far from home.

Mr. and Mrs. Jack Wilkerson left this week for a month's visit with relatives and friends at the old home, Dodge City, Kansas.

Mr. and Mrs. W. E. Deutsch who have spent the past two years in Redondo Beach, have returned to Sierra Madre and are occupying their home at 27 West Laurel Avenue.

George M. Sullivan came up from San Clemente Monday to look after Sierra Madre property interests. He is engaged in contracting and building at Ole Hanson's Spanish village and reports much activity there.

C. W. Collins returned home on Sunday after a hurried business trip through the southern and middle western states. He is more than ever glad to be permanently located in this climate after sampling what the various cities visited had to offer.

Mrs. Harvey Steinberger arrived home on Wednesday morning from Minneapolis where she has been visiting at the home of her sister, Mrs. W. E. Doty. She had expected to remain longer and Mr. Steinberger was to have joined her there about August 1. But when she heard that her son, George, was in the hospital as a result of injuries sustained in the mountain fire of July 15 she could not get home too soon.

Miss Doris Bayard who recently graduated from the Broadmoor kindergarten training school, is taking advanced work at the summer session of Pomona college.

Mr. and Mrs. S. R. Norris returned home on Sunday after enjoying a week's vacation in their cottage at Seal Beach.

Cy Young took Mrs. Young and the children to Seal Beach on Sunday, where he left them to enjoy a week's outing.

SAFE LUBRICATION

Do you know what is meant by safe lubrication? It is using a high quality of oil in your motor that insures your motor of perfect lubrication. It takes a 100 per cent pure Pennsylvania oil with a paraffine base to do this.

We carry the two best brands, namely: Rich-lube and Pennzoi. Whether you drive a Ford or a Packard we have the proper grade for your motor.

Interesting News Notes from Sierra Madre Canyon

The regular meeting of the Canyon Improvement Association was held in the club house on Thursday evening with J. M. Campbell of the Chamber of Commerce and Assistant City Engineer Buck in attendance. The entire evening was given over to plans for the Canyon swimming pool campaign and the road-paving project.

On Sunday the Canyon Improvement Association entertained an enthusiastic group of Sierra Madre firemen and their families in Petsel's gardens. The morning was spent in games, tug-of-war and contests of various kinds. Roy Walsworth won the highest score of sixteen points and was awarded the first prize, a \$5 gold coin; Bob Babbitt the second winner, having fourteen points, drew \$2.50 in gold. W. L. Hibbs and James C. Heasley each having eleven points, played a game of horse-shoes for third place, Mr. Hibbs being the lucky winner and was given \$2.50 in gold. At 1 o'clock tables were spread under the trees and 56 guests were served with a picnic dinner in charge of Mrs. W. B. Corum. Mrs. Corum was assisted by Misses S. Petsel, Laura M. Cline, F. Schalos and W. R. Richards. Among the guests were Mr. and Mrs. W. D. Richards, Mr. and Mrs. J. C. Heasley and family, Mr. and Mrs. Roy Walsworth and family, R. W. Buck and son, Mr. and Mrs. W. L. Hibbs, Mr. and Mrs. Vernon Udell, Mr. and Mrs. Babbitt, Mr. and Mrs. Swanson, Mr. and Mrs. S. Petsel and daughters, Dorothy and Lorraine, Mr. and Mrs. F. W. Schalos, E. A. Anderson, J. P. Morris, Miss Alice Corum and others.

On Saturday night Mrs. Laura M. Cline entertained with a dinner party in honor of Mr. and Mrs. Lester Elmore and their son, of San Francisco. Other guests were Mr. and Mrs. Lawrence Elmore of Pasadena and Miss Clara Sykes.

The people of the canyon wish to thank all their friends for the generous vote that was given the canyon swimming pool on Tuesday. They feel sure that by the majority vote cast our trustees will realize that a pool is needed and wanted in the canyon. A note of interest is the fact that more than 100 votes were cast from the canyon district. Autopsies, like comparisons, are odious, so they will not try to analyze why people voted against them. Sufficient to say they are well pleased with the result and abide

by the judgment of the people in the western section of our fair city. However, the corpse (the pool) is still alive and ways and means are being devised to put this project through under an assessment district plan, with every hope of success. As the British used to say during the war: "Are we down-hearted? We say no."

Max Lewis of Los Angeles has rented Mrs. Laura M. Cline's cottage, "Harmony," for a month.

Mrs. J. A. Ensminger of San Diego is a guest of her daughter, Mrs. Harvey Slocum, for a few days.

Mrs. J. P. Johnson arrived in Sierra Madre on Thursday from Albuquerque, New Mexico, where she has resided for the past year. Mrs. Johnson will be a guest at the home of her brother, Wm. J. Stevenson for a number of weeks.

Mrs. Archie McKaig of Los Angeles is visiting at the home of her parents, Mr. and Mrs. Wm. J. Stevenson for a week.

Mrs. Carrie Ritter and Miss Alice Ritter of Los Angeles were guests of Miss Minerva Boatright and Miss Florence West on Sunday. Mrs. Lou Gillette, Mrs. Homer B. Fern and her young daughter Shirley of Long Beach also visited Miss Boatright and Miss West on Sunday afternoon.

Mr. and Mrs. T. S. Mason, Mr. and Mrs. Elwin Harris and children, all of Pasadena, were Sunday guests of Mr. and Mrs. Robert McCartney at Virge Inn.

On Monday afternoon Miss Laura E. Cadmus and a group of her pupils and friends visited the Henry E. Huntington Library and Art Gallery at San Marino. The party included Mr. and Mrs. A. B. Collins of Huntington Park, Mrs. Clarence L. Virgin of Pasadena, Miss Florence West of Kansas City, Mo., Mrs. Anna S. Bacon, Mrs. Lester K. Layton, Mrs. H. C. Reavis, the Misses Katherine

F. Burton, Alice Corum, Dorothy and Lorraine Petsel.

Mrs. Laura M. Cline entertained a party of friends at the Hollywood Bowl concert on Tuesday night. The guests were Mrs. W. R. Humphries, Mrs. L. Pickard, Mrs. Harvey Slocum and Mrs. J. A. Ensminger.

Mrs. Laura E. Beyl of Long Beach, Miss Doris Byars and Mrs. T. J. Sturm of Pomona were guests of Mrs. Nettie J. Forrest at Forrest Cottage from Tuesday until Thursday.

On Sunday afternoon Mrs. Milo V. Chapin of Montebello entertained with a picnic supper at her cottage Kil Kare in honor of the birthday anniversary of Mrs. Wm. McCauley of Del Monte. Those present were Mrs. Elizabeth Musgrove, Mr. and Mrs. Wm. McCauley, their two sons, and Mr. and Mrs. Milo V. Chapin.

Mrs. Doris M. Wolcott and two children of San Pedro, have rented Cottage No. 6 in Audubon Park for a month.

J. Perry and a group of his friends left the canyon on Thursday for their homes in Long Beach after a month's residence in Audubon Park.

Mr. and Mrs. Charles F. Gilmore entertained five boys from Pasadena on Thursday with a swimming party at Audubon Park. Those enjoying the pool were Masters Russell Mohr, Morton Hilbert, Ralph Hilbert, Paul Ferguson and Donald Carson.

Mrs. Laura M. Cline and a number of other residents in the lower portion of the canyon are having city water installed on their property this week. Formerly folks living in this section drew their water from the canyon tunnel and frequently experienced difficulty when the supply from this source was low.

Los Angeles humane authorities have acted to prevent an endurance swim for horses, scheduled to be staged over a two-mile course at Lake Elshore. It was held that swimming horses such a distance needlessly, would constitute cruelty to animals. The horses are owned by a military academy located at the lake.

L. DIETZ,
City Clerk.

Tea for Coming Bride is Given By Her Sister

Mrs. Gordon R. Brooks entertained at a delightful tea on Tuesday as a prenuptial courtesy to her sister, Miss Elizabeth Polsue. Many beautiful gifts of linen and china were presented to the honor guest, in a huge basket, by her small niece, little Miss Jean Brooks.

Those invited to the lovely affair were Misses. Ralph Richardson, J. R. Evans, Waverly Pratt, Leonard Wammock, Ben Needham, Percy Adams, H. A. Howard, J. Calhoun Boyd Keith and E. W. Fellows.

Miss Polsue was also the guest at a lovely shower given for her by Mrs. Leonard Wammock at Long Beach last week, at which twenty-four guests were bidden. The affair was arranged in the beautiful setting at Bixby Park.

Alfredo Casella Next Director at Hollywood Bowl

Italy, motherland of music, sends another of her great sons, Alfredo Casella, internationally celebrated conductor, composer and pianist, to the Hollywood Bowl and Southern California, to direct four concerts, July 31, August 2, 3 and 4. Three of his own compositions will be played under his baton—"La Giara," on Tuesday night's program generally considered one of the most interesting ballet works of recent date, "Scarlattiana" on Thursday night, in which the piano part is taken by Signor Casella, and "Italia Rhapsody," played for the first time on the Pacific coast under his direction.

Nicholas Ochi-Albi, violoncellist, choice of the Bowl addition board for string soloist, will appear Friday night, playing the Saint-Saens concerto in A minor.

NEWSPAPER COMMENT

Recalling the events of the recent world conflict we would not be astonished if these gang wars spread until they involve us neutrals.—Brooklyn Eagle.

If the meek inherit the earth, they'll find their property pretty heavily plastered with mortgages by those who were not so meek.—Council Bluffs Nonpareil.

The Corn Belt should note with interest that Herbert Hoover's usual lunch includes four or five pieces of corn bread.—Boston Herald.

These are the days when mere man can take his turn bawling out the ladies who spill tobacco ashes on the rug of the living room.—Chicago Tribune.

If the vote doesn't come out this time we're going to despair of democracy and declare unequivocally on November 7 for a dictator.—Ohio State Journal.

Mr. Hoover is going to conduct a front porch campaign as soon as he can remember where he lives when at home.—Ohio State Journal.

Even the weather man is getting that way and occasionally talks dry and acts wet.—San Francisco Chronicle.

Sex equality is what makes a lady passenger in a transatlantic flight eclipse the pilots who got her there.—Philadelphia Enquirer.

The Chinese Nationalists announce they will pay their war debts. Evidently they aren't as Westernized as we thought.—Nashville Banner.

Neal Dow, the father of prohibition, had a son at the Kansas City convention, but it is generally believed that it was the other son.—San Diego Union.

Ross is a member of the Board
of Lectureship of The Mother
Church, The First Church of
Christ, Scientist, in Boston, Mass.

His Recovery

"At one point in my career I was
given up by seven doctors to die,"
stated Uncle Feebles. "The three
local physicians gave me up, and
then four doctors from farther
away gave me up in rotation, each
from his favorite incurable disease.
Later they all gathered around in
solemn conclave and gave me up in
unison from seven different mala-
dies for which the medical profes-
sion knows no cure. Soon after,
because they were letting me alone,
I got well on my own hook."—Kan-
sas City Times.

Burial of Giantess

To bury a woman who died at
Maquassi, South Africa, the ser-
vices of 30 men were required. The
coffin was 3 feet 4 inches high at
the shoulder and 6 feet 3 inches in
length. Twenty men had to assist
in putting the corpse into the coffin,
and 30 pallbearers lowered it into
the grave. The deceased, who was
a young woman, had been bed-
ridden for a year. Owing to her
weight a special bed had to be
made on the floor.

Filler In

Mistress to cook who is leaving)
—"Well, Linda, I hope the man
you're marrying is a worthy one."
Cook—"He ain't of the best, ma'am,

poses.

Immortal Work

"The Divine Comedy" by Dante,
is written in the form of epic
poetry. A long narrative poem is
thus classified.

Magnetic Attraction

The bureau of standards says
that iron, nickel and cobalt are
metals that the ordinary magnets
attract.

Gorilla Fussy About His Sleeping Place

The main apparent preoccupation
of the male gorilla is fighting for
the continued possession of his
wives. As the family party moves
along through the forest, rarely
sleeping twice in the same spot,
there is every night the business of
making beds. For the gorilla has
at least this in common with his
human cousins that he likes and
demands a comfortable sleeping
place and, what is more, he prefers
to make his sleeping arrangements
well before darkness falls.
For this purpose paterfamilias
bends down saplings and covers
them with leafy branches, while
the member of his harem, who are
sent up neighboring trees, make
each her own bed in a suitable fork
by breaking off branches within her
reach. Their beds are never very
high up—never too high for the old
man to be able to keep his eye on
them. You may find chimpanzees
nesting in the treetops, but never
gorillas.

Once I had a chance of studying
this proceeding. I made my camp
close to two parties of gorillas. My
own bed was made in five minutes,
but the gorillas took twenty min-
utes to finish theirs to their liking,
and probably were more comfort-
able than I. They are certainly
very fastidious in this matter. Even
when they remain in the same spot
for a few days they make fresh
beds every night, sometimes even
in the same trees as the night be-
fore, but in other forks.—Dr. N. A.
Dyce Sharp, in the Continental Ed-
ition of the London Daily Mail.

Highest Reward

The most agreeable recompense
which we can receive for things
which we have done is to see them
known, to have them applauded
with praises which honor us.—
Mollard.

Size is Important

When you buy your General Electric
Refrigerator you are buying for the
years ahead. So, be doubly sure you
get one large enough for future needs.

Just remember that the small sizes are
for families of two or three, and that if
there are four or more in your house-
hold you'll surely want the Model 95.

This one is roomy yet occupies little
floor space. It has food storage ca-
pacity that is not strained by week-end
guests or parties. It makes available at
one time 28 pounds of tinkling ice
cubes. There's ample room for extra
food so that you can market two or
three times a week instead of every day.

The General Electric is the new-day

refrigerator—"years ahead" in design
and different from all others. All the
mechanism is up on top, sealed in an
air-tight steel casing, forever safe from
dirt, forever worry-proof.

This quiet, automatic electric refrig-
erator never even needs to be oiled. It
plugs in as simply as an electric flat-
iron and is economical of current.

It is easy to keep clean. Radiation from
the top coils causes a constant upward
air current that keeps dust from settling,
while the legs which raise the whole
refrigerator well above the floor permit
ample "broom-room" underneath.

Come in and ask especially to see
Model 95 which is now offered at a
new low price.

Residents of this vicinity will be an opportunity to hear an authorized lecture on Christian Science on Tuesday, October 2, from 12:10 to 12:50 noon, when Mr. Andrew Hart, C. S., of Cleveland, Ohio, delivers a lecture on "Christian Science which will be broadcast over station KFI from Philharmonic Auditorium, Los Angeles, under the auspices of the Church of Christ, Scientist, of other Churches of Christ, Scientist, Los Angeles. Mr. Hart is a member of the board of lecturers of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

Place in the Sun

They were discussing silk stockings. "They were invented in Queen Elizabeth's time," said the man who knows everything. "Yes," commented another, "but they weren't discovered until the twentieth century."—Tit-Bits.

Just a few days before the great nations outlawed war, the Orient was learning Occidental logic. —Ashville Times.

Clinch Champions

First Ringsider (as the boxers old): "Not so hot, are they?" Second Ditto: "No, there's only one John Gilbert and Greta Garbo. Life.

Fire Flames

By One of the Boys

"It won't be long now!" "And How!"
If I hear these again, I vow I'll kiss the guy right on the brow. It won't be long now, and how!

The card party held at the Masonic Temple last Thursday for the benefit of the Sierra Madre Firemen's Relief Fund proved a wonderful success, both as a social event and a financial gain. There were in play approximately sixteen bridge tables and a similar number of 500. Mrs. Roess of Highland Avenue won first prize at bridge with a score of 2069. There were six tables played, of twenty-four hands. E. H. Keegan won second, and Miss Edna Ryland third prize in bridge. At the pool tables, O. Bergien won first with a score of 4830. Mrs. Craig won second, while Tony Delveci, Frank Hildebrandt and Mr. Bartell were winners, respectively. Art Evans and Vic Hill were also winners at bridge.

Included among the many prizes were a handsome donated by the Sierra Madre Hardware Co.; an electric toaster and a beautiful boudoir lamp, by Claude Velder; a very pretty Japanese tray, by Mr. Wheeling of the Wheeling Hardware Store; a purse, by Fraiberg's jewelry store; a pair of slippers by Draman's; a gent's toilet set, by Hartman's; gent's toilet set by the Central Pharmacy; five gallons of gas from the Central Garage; and another five gallons from "Shorty" Stenberg. The very beautiful plant and the dressed chicken were given by a special friend who urgently requested that we refrain from disclosing his name. Frank Lovell (our own Frank) gave us a bag of dandy potatoes. He evidently figured that a fireman would win a prize, and therefore he brought something edible.

Speaking for the entire organization, we wish the folks to know that we are grateful for the support proffered us on these requests and occasions. Not only are the boys pleased with the financial gain, but with the spirit of the people. Everyone appeared to be really enjoying the "party." This was pleasing to the boys. As we admitted before we are anxious to make some money, but regardless of this we were more hopeful that everyone enjoy himself. A complete financial report will not be available until after our next meeting, when each member reports his sales, etc.

Much credit for the success of the party must go to Mr. and Mrs. W. L. Hibbs, Mr. and Mrs. Frank Lovell and Mr. and Mrs. Bob Babbitt. The rest of the boys worked to the best of their ability. Jim Heasley was willing to wash dishes to get out of playing but Mrs. Richards compelled him to play bridge due to a vacant chair. He gave her a vacant stare and proceeded to play bridge. The ways of a maid with a man.

George Norris, "Scotty" Swanson, Vern Udel, Roy Walsworth, Louie Karger, Frank Lovell, Bob Babbitt, Tom Schwartz and practically all the boys who were not called to the tables, assisted in the kitchen.

A fountain pen and a pencil donated by Mrs. J. Froelich was captured by Mrs. Tom Schwartz.

Don Hosford (our own fair-complected member) is now selling radios from his own office. Don is radio from his sales to his bald spot, and if he doesn't sell 'em, who can?

A fireman brave stood on the truck and took no heed when told to "duck"; the truck ran 'neath a pepper tree; a bough hung down, he didn't see—it scraped his cap, it scratched his eyes, it took the brave boy by surprise. He moaned and groaned at driver Pete and started crawling toward the seat. Just then Peter hit a curve, the truck began to twist and swerve. The brave boy tumbled amongst the hose and scraped the railing with his nose. "Don't mind that," with him sang. "Jim's got his nose in everything."

An Illinois newspaper reports that "The blaze was extinguished

before any serious damage done by the local fire department." Our local band was a surprise to us all last Friday night. Really better than was expected of 'em. At first it looked as tho there would be a small attendance, but when the horns and drums were heard a large crowd soon gathered. Everyone seemed anxious to encourage the band and the small attendance at the beginning was due more to forgetfulness than lack of courtesy. It has been quite a long period since the last concert and the folks had kind of got out of the habit.

Art Johnson ought to make a popular business man. He will probably be seen behind the counter at the former Clark's Newsstand and confectionery. Art and his father have taken over the business. The Fireboys wish him success.

W. L. Hibbs and Gordon Brooks were among a crowd of Sierra Madre fishermen who enjoyed the Manhattan Beach deep sea trip. Lee caught yellow-tail on a drop line while Gordon couldn't catch even a mackerel with a pole. Our former member, Carol House, is in charge of the pier there.

Chief E. H. Keegan of the police department and building inspector and park supt., has turned in his resignation and it takes effect Oct. 1. As he neglected to state which one of the many offices he was resigning from, it was difficult for the city attorney to accept. Nevertheless the council proceeded to elect George H. Cox as his successor and altho he has practically the same prestige, he now possesses some additional titles. He is chief of police, building inspector, plumbing inspector and city electrician. Well, anyone that knows George is aware that if they added city bricklayer, city barber and city locksmith, that he is capable.

Someone buying some property in tract 2456, refused to accept deed, due to Chas. H. Mann proclaiming oil and mineral rights. It was learned thru legal papers that Mann had turned these rights over to Sierra Madre city, therefore the board decided to turn the said rights over to the party who had this party drilled an oil well on his lot and struck oil, and then "G-osh!" supposin' it caught on fire!

The Canyon Improvement Association was on deck to hasten the election to be held sometime in regard to their swimming pool.

A few more communications and we got too sleepy after a hard day's work, and went home.

It seems as tho Chief Richards and McMillen had a fire all to themselves last Saturday night about 11:45. A Ford car owned by Chas. Mann caught fire and with the use of some chemicals "Bill" and "Mac" saved the four wheels. Thanks to these two brave boys, the FIRE'S OUT!

Masculine Martyrs

Women smokers are blamed by State Forester M. B. Pratt for a large part of the increase in forest, brush and grain fires in California.

"It is a proven fact that women are more careless with their 'stubs' than men," said Pratt. "A man will grind the stub into the bottom of his car or in some other manner extinguish the light."—San Francisco Examiner.

Too Few, Gene

"Before I do anything else," he told the reporters who found him there, "I wish to say that I do not want any questions asked. There are probably eighty questions each of you want to ask. As there are thirty of you here, that makes 240—too many." —Tunney story in the Schenectady Union-Star.

Enough's as Good as a Feast.
The war department announces that a man, no matter how far he may fall through space can not fall faster than 118 miles an hour. Well, not being much of a speed fiend that would be plenty fast enough for most of us, but it seems as though something should be done about it for the benefit of those who like to travel fast. —Knickerbocker Press.

Marbelite To be Used For Walnut

Pasadena City Directors Decide on Light Standards Like Civic Center

Marbelite ornamental lighting standards have been decided upon by the Pasadena city directors for East Walnut Street between Fair Oaks and Lake Avenues. This street, which is an important one for Sierra Madre traffic bound for points west of Pasadena, will be widened and improved as a part of Pasadena's major traffic system.

Decision of the directors to adopt Marbelite standards follows the installation of the same type of standard for the streets in the new civic center about the Pasadena city hall. The standards are of tall, graceful proportions and make an attractive appearance. One of the strong arguments in favor of the same standard for East Walnut was the fact that the latter thoroughfare passes along the north side of the civic center in front of the public library and board of education building.

Among the meritorious features of the Marbelite standards, which were adopted after lengthy debate, were their durability and the fact that there is no cost for upkeep. The surface is not affected by weather and requires no painting to prevent deterioration.

All Women Invited to Attend Meeting

Hostesses at the first fall social meeting of the Congregational Women's Society next Tuesday afternoon will be Meses. Lillian Wheeler, W. S. Hull, C. W. Jones, F. W. Swift and M. R. McBurney. Entertainment for the afternoon will be in charge of Mrs. J. M. Campbell and Mrs. E. Waldo Ward. All women are invited to attend and to bring needle and thread for sewing which will be provided for a part of the afternoon.

A technical writer says there are some chemicals for which man has found no use. Evidently he has a limited knowledge of beverages.—Washington Post.

Fun Reigns In Features At Wistaria

Laughs in Great Variety on Bill for the Coming Week

Based on the adventures of a slick promoter who comes to a small town with a get-rich-quick scheme, Paramount's W. C. Fields and Chester Conklin team picture "Fools for Luck" which opens tonight at the Wistaria Theatre, is an outstanding example of the new type of motion-picture comedy. In other words it is a comedy which derives its humor from funny situations worked in logical fashion thru an interesting story rather than from a disconnected series of artifices designed solely to get laughs.

Following two unusually successful dramatic portrayals in "Lilac Time" and "Happiness Ahead," Colleen Moore has returned to comedy with "Oh Kay!" an adaptation of the stage play, coming Sunday night.

Screamdom's most famous comedy team, Karl Dane and George K. Arthur, the comedians responsible for "Rookies" and "Baby Mine," arrive Tuesday in "Circus Rookies" said to be the most hilarious of the season's comedies.

Communications

Chicago, Sept. 18, 1928.

Dear Friends:

It is "the time of falling leaves"—many of the trees begin to look scant in clothing, as the leaves let go, and fall to the ground, to chase each other in merry frolic.

Why not? They have fulfilled their mission, they became a perfect leaf, did their work well, and then in the last days were more beautiful in their sun-kissed colors; then they gracefully let go the tree and flew away in the gentle breeze.

Here is a lesson for all of us: Do your work well, become as perfect as you can on the tree of life, then when sun-setting time comes, its glory will fill your soul with gladness, as the "falling leaf" lets go and flies away to never and brighter scenes. These thoughts came to me as I looked from our window upon the park with its thinning shade trees and drooping flowers, and I said, God bless the falling leaves, for the great good they have done to weary and tired humanity.

Some one has said that "September begins at the end of the electric fan season and ends at the beginning of the thick underwear solstice." So far the month has been delightful, full of sunshine, and cool enough to be enjoyable.

The schools are now open, having enlisted over 500,000 pupils, but their school houses cannot compare in beauty to those in California.

We are now getting in plenty of grapes, watermelons, apples, pears and strawberries. Who does not love the fall with all its gifts and blessings.

Chicago, to me, is a miracle city. When I came here in 1862 the population was about 129,000. Today, it is near 4,000,000. Then it was a wooden city—wooden houses, wooden streets, wooden sidewalks. It made a first-class bon fire in 1871. Today it is the wonder city of the world, which in the memory of some now living has grown from a little Indian garrison to the second largest city in the Western Hemisphere.

It is a great manufacturing center, and the volume of busi-

NOTICE OF COMMISSIONER'S SALE OF REAL ESTATE ON FORECLOSURE OF MORTGAGE.

NO. 28855.
In the Superior Court of the State of California in and for the County of Los Angeles.
THOMAS M. SNYDER, Plaintiff,
vs.
ANNA C. HOGAN, et al. Defendants.

Under and by virtue of an order of sale and decree of foreclosure and sale, issued out of the Superior Court of the State of California, in and for the County of Los Angeles, on the 13th day of September, 1928, in the above entitled action, wherein the above named plaintiff obtained judgment and decree of foreclosure and sale against ANNA C. HOGAN, Defendant, on the 31st day of August, 1928, for the sum of Forty-five Hundred Ninety-five Dollars gold coin of the United States, which said judgment and decree was on the 7th day of September, 1928, entered and recorded in Judgment Book 669 at page 184 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the following described premises, situate, lying and being in the City of Pasadena, County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Lot thirty-eight (38), of Lexington Heights, as per map recorded in Book 22, page 69 of Maps, in the office of the County Recorder of said County. PUBLIC NOTICE IS HEREBY GIVEN that on Tuesday, the 16th day of October, 1928, at 12 o'clock noon of that day, in front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment with interest and costs and expenses of sale, to the highest and best bidder for cash, gold coin of the United States.

Dated September 13, 1928.
R. E. ALLEN,
Commissioner appointed by said Superior Court.

KENT BLANCHÉ, Esq.,
517 National City Bank Bldg.,
Attorney for Plaintiff.

For the Price of One Movie Show

Not much of an extravagance to take the whole family to a movie once a week. But if there are four in the family, we pay enough for one 35-cent picture to supply the lights, run the washing machine, operate the electric ironer and the vacuum cleaner for three weeks.

"Electricity is CHEAP Use More of It"

Electricity is unusually cheap in Central-Southern California, because "Edison" always has been a people's project . . . owned by those it serves. Californians are loyal to their country; they know electricity is as essential as sunshine and water to its development.

Edison partners, 118,000 of them, are Californians, well content to take part of their profits out of the growth of the country, intent upon helping their country to grow.

SQUARE PEGS IN ROUND HOLES

All children cannot make the same height and weight standards at the same age. Some are lean and some are fat, partly from their nutrition and partly from the kind of body build which they inherit.

Every child has his own body pattern of growth which he should grow in with the help of good nutrition and physical care. The height, weight and age tables represent the averages from many children of different body build and body care. No child should be "pigeon holed" as underweight or overweight until his particular pattern is understood. However, emphasis must not be placed ignorantly on "natural slowness and fatness" and thereby confuse inherited tendencies with lack of good nutrition and care of the health. A child who stands the test in all ways of a well-developed and healthy child for his race and build need not be the cause of great concern if he does not exactly fit the averages at every age. Going great distances below or above the standards at any age, whether of the slim, medium or large type is always a warning for finding the cause.

A little knowledge may be a very dangerous thing in rigidly applying these standards of growth. The scales and measuring rod will always be two good guides of growth if used with common sense and wise understanding. Trying to make children eat, sleep and exercise up or down to the standards very often defeats the longed-for results. Hard and fast rules cannot uniformly be applied in obtaining health, neither can they be so applied in measuring health and growth. Best results came when the best known ways are applied in an individual way for each child.

Make a child physically and environmentally free to grow, then let health habits develop as a natural part of the day's living.

By Your Leave

The following is a bishop's description of the kind of preaching sometimes addressed to fashionable congregations: "Brethren, unless you repent, in a measure, and be converted, as it were, you will, I regret to say, be damned to some extent."—The Churchman.

NOTICE OF COMMISSIONER'S SALE OF REAL ESTATE ON FORECLOSURE OF MORTGAGE.

No. 251036
In the Superior Court of the State of California in and for the County of Los Angeles.
ABRAM HESLOP, Plaintiff,
vs.
PACIFIC MORTGAGE COMPANY, a Delaware Corporation, et al., Defendants.

Under and by virtue of an order of sale and decree of foreclosure and sale, issued out of the Superior Court of the State of California, in and for the County of Los Angeles, on the 3rd day of July, 1928, in the above entitled action, wherein the above named plaintiff obtained judgment and decree of foreclosure and sale against PACIFIC MORTGAGE COMPANY, a Delaware Corporation, and EFFIE S. MILLER, Defendants, on the 27th day of June, 1928, for the sum of Thirty-two Thousand Four Hundred Five and 32/100 Dollars gold coin of the United States, which said judgment and decree was on the 29th day of June, 1928, entered and recorded in Judgment Book 692 at page 33 et seq. (to which judgment and decree reference is hereby made), I am commanded to sell at public auction all the following described premises, situate, lying and being in County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Lots (3), Four (4) and Nine (9) Heslop Tract, as per map recorded (g 26-34 of Maps in the office of the County Recorder of said County, together with all and singular the tenements, hereditaments, and appurtenances thereto belonging, or in

any wise appertaining.
PUBLIC NOTICE IS HEREBY GIVEN that on Tuesday, the 31st day of July, 1928, at 12 o'clock noon of that day, in front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment with interest and costs and expenses of sale, to the highest and best bidder for cash, gold coin of the United States.
Dated July 3, 1928.

County Park Is Projected On Toll Road

Acquisition of Henniger Flats From Hotel Company Is Urged

In accordance with a plan his office has worked out for the reforestation of high elevation areas in Los Angeles county, Spence D. Turner, county forester, announces that he will request the board of supervisors within the next few days to purchase 150 acres comprising the summer resort known as "Henniger Flats."

"The property in question," Mr. Turner said, "has been held at \$100,000 by the Mt. Wilson Toll House company, but has recently been reduced to \$65,000, provided the county wishes to take it. The toll company is anxious to assist in perfecting the plan and in helping the county to take over the property as the probabilities are that it would be devoted to public park purposes."

"Henniger Flats is a 15-minute drive from the Mt. Wilson toll house in Altadena. The original owners planted pine trees on the property twenty years ago and the subsequent growth of these trees has amply demonstrated the practicability of reforestation in high mountain areas," Mr. Turner explained.

"Efforts at reforestation have proved in the past that pines growing on the low lands will not thrive when transplanted to high altitudes," the county forester added. "Experiments in reforestation have been carried on extensively in recent years, and we now know that devastated forest areas in this part of the state can be restored to their original state much more rapidly through human effort. The increasing number of forest fires makes it necessary that we undertake the work of reforestation in this county on a large scale, such as can be accomplished if Henniger Flats and its wonderful pine trees are purchased by the county for use in propagation."

Many Visitors Expected for '32 Olympiad

Returns that California will receive from the holding in this state of the world Olympic Games of 1923 will exceed vastly the sum the state may contribute toward the staging of the games, it is declared by those who have studied the situation carefully. The California legislature at its last session voted authorization of an expenditure of \$1,000,000 as the state's share of the expenses of the Tenth Olympiad, but many times this amount of money will be left in California by the hundreds of thousands of visitors who will be attracted here by the almost twelve months' of competitions in athletics, sports and the arts.

Added to the great number who will be drawn to California directly by the Games themselves, there will be other scores of thousands who will come to attend the national conventions that are being arranged for 1932. More important national organizations than ever before have convened in any particular section of the United States will meet in California throughout 1932, as a result of the world Olympiad being held here. It will be by far California's greatest convention year.

Many Try for Parts in Plays At Playhouse

Three distinct plays are in the process of rehearsal at the Pasadena Community Playhouse under the direction of Gilmor Brown, supervising director. "Dear Brutus," by James M. Barrie is the current production, July 24 to August 4; "Pomero's Past," by Clare Kummer, is in rehearsal for August 7 to 18; "John Kemp's Wager," by Robert Graves, and "The Vegetable," by F. Scott Fitzgerald, the latter two to be given in the Playbox July 30, August 2 and 3, and August 13, 15 and 16, respectively.

Mr. Brown is coping with the heaviest demand for parts in plays he has ever experienced since the Playhouse was established eleven years ago. There were more than 60 applicants for the nine parts in one play, with seventy-eight for the eleven parts in another. Most of the new arrivals are from colleges, dramatic schools or the professional theatres, and seem intent upon the spoken drama or possible berths as directors in the future.

Philanthropist: A man who gives it back.—Bridgeport Star.

WANTED: Housework by day or week. 372½ W. Highland. 437

Reservations

By J. R. E.

Said a Sierra Madre Mother to Her Charming Daughter: "Mother, may I go out to swim?" "Yes, yes, my darling daughter; Hang your clothes On a hickory limb— And take yourself a nice sunbath!"

As we remarked to Dr. Rich: "Doctor, if you could swim—if we had a pool." And the doctor replied, "There's two too many ifs in that remark."

Well, anyway, the Canyon people showed the rest of the world what can be accomplished by hard work. And they have just started, apparently. We'll bet those folks will be swimming in their own pool long before this time next summer.

If we can't have pools, let's change the "p" to "sch" and see what can be done about it?

Why Old Men Leave Home "Round trip Portland 'with variations.' Miss Anywhere, Ter. —Advt. in Star-News."

It's been ten days since "J.R.E." and the Missus stepped out for a week end at Mount Low Tavern. Ten days spent in a hunt for the proper adjectives and superlatives to describe the wonders encountered from the time of leaving the trolley car below the cable-line to Inspiration Point at night. We are inclined to think that even Noah Webster would have difficulty in doing justice to the latter. Try to imagine forty cities and millions of lights, from mountains to the sea, stretched out before one's eyes in a dazzling panorama. Better than that, board one of the "big red cars" some day and stay over night at the Tavern. Though you have sailed the Seven Seas, you have never seen a sight such as lies in our own high back yard. Take the trip to your earliest opportunity!

Many Prizes For Winners In Air Meet

That both San Francisco and Oakland will provide special trophies for the winners of the California air derbies to be a feature of the National Air Races and Aeronautical Exposition in Los Angeles in September, is the report brought back by Dudley M. Steele, contest chairman, from a flight to the Bay district where he made arrangements for the start of the two big contests.

The Class A race from San Francisco will be started under the auspices of the San Francisco junior chamber of commerce. D. H. Hughes, executive head of that organization, and Frank Flynn, general manager of Mills Field, have been appointed special representatives of the California Air Race Association for the event.

The race will start from Mills Field and contestants will be required to land at the municipal airport at Visalia, which will be the control point of the derby. The contest is open to ships of 510 cubic inches engine displacement and less, and special prizes will be posted by San Francisco interests in addition to the \$2000 in cash and trophies to be awarded by the association.

The California air derbies are a part of the mammoth program of thrilling speed flights to terminate in Los Angeles during the 9-day meet September 8 to 16, inclusive, including a non-stop race from New York City, a three-class control race from that metropolis, a Pan American derby from Mexico City, a Canadian derby from Windsor, and other big features.

Langdon In Laugh Film At Wistaria

Geared to the roaring road of laughter, Harry Langdon's latest comedy classic, entitled "The Chaser" will be seen at the Wistaria theater tonight and Saturday. If advice from the First National Studios may be taken as a criterion it is one of the most amusing stories ever published in celluloid.

"Diamond Handcuffs," Cosmopolitan's graphic romance of diamonds and the underworld, is the attraction Sunday and Monday. It is a vivid story of the trail of a diamond through adventure, intrigue and the underworld.

Babe Daniels comes Tuesday night in "Hot News." This big feature has been showing to packed houses at the big theatres and local picture fans have been awaiting its arrival with keen interest.

Fola Negri is the star of the Thursday feature, "The Secret Hour." Comedy and news reels are added to the various programs to afford plenty of variety.

Safe Sewage In Mountain Area Order

Chemical Disposal System for Every Cabin to Protect Water

Approximately 2500 owners of cabins in the Angeles National Forest have been notified by Supervisor George H. Cecil that they must install on their premises by July 1, 1929, chemical sewage disposal facilities.

The order from the forest service comes after an exhaustive investigation of sanitation in relation to cabins in the national forest by the county health office. There are said to be twenty approved types of chemical toilets which will meet the requirements of the health office and the forest service.

Study of the situation, it is said, has developed the conclusion that pollution of streams is impossible with chemical equipment. City water department officials are reported to favor the regulation put in effect by the health and forest departments. Much of the water supply for Pasadena comes from the arroyo, it is pointed out, and any measure that reduces the danger of pollution is desirable.

Many New Warning Signals Put Up by Auto Club

Motorists who watch caution and warning signals will find some 600 more of them marking the highways than last month, according to the signposting department of the Automobile Club of Southern California. These 600 were erected during June in addition to 539 direction signs and 941 temporary signs marking detours, closed roads, etc. There were also twenty reflectors placed at dead-end streets and other locations, and in doing this work members of the signposting department of the club covered nearly 20,000 miles of traveling in Southern California.

Law Uniformity Aids in Solving Traffic Evils

How uniformity in laws is eliminating confusion among motorists is being demonstrated in the sixty-three municipalities of this state which have adopted the Uniform Traffic Ordinance for California cities.

Laws are now the same in these communities on many subjects which formerly caused grief for motorists through widely differing rulings. Regulations regarding the passing of standing street cars were among these, for some cities demanded the stopping behind the car, others allowed the motorist to pass, and others had certain restrictions on passing. Now in the cities with uniform law the motorist is required to stop behind the street car except where there are safety zones for pedestrians, automatic signals or traffic officers operating.

TRADE AT HOME! Swim in Monrovia!

Buy Real Estate in Sierra Madre

A lady came into the office Thursday and asked my opinion regarding a lot she had purchased. This lot is about 100 miles north of San Francisco and she had purchased it because the company selling the lots had awarded her a prize of a two-hundred-and-fifty-dollar lot. The general salesmen notified her of her good fortune and then suggested that she apply her \$250-dollar lot on a five hundred-dollar lot, paying \$15 a month. What could be nicer?

Folks, don't buy real estate without seeing it. Every promise a salesman makes, have him put it in black and white, and have the broker he represents sign it, too. Beware of prizes; look out for surprises, and if you really want to

Invest

in real estate buy Sierra Madre property. I have a few very special bargains that I don't dare publish the prices. Why not win a real prize by buying of

Fast Matches are Played in Tennis Meet This Week

Although the entry list in the tennis doubles tournament has not been large, some speedy matches have been played and more are in prospect before the finals are completed.

In the matches already played Emil Smith and Bradley Metcalf defeated Billy Schwartz and Dudley Shaw, 8-6, 6-0.

Preston Schwartz and Leslie Miller defeated Raymond Tarr and Danson Tarr, 6-2, 6-4.

On Saturday Schwartz and Miller play Smith and Metcalf, the winning pair to enter the finals Sunday afternoon.

Sunday morning at 8 o'clock, Harold Roberts and Harry Draman will play the Reitherman brothers. The winners of this match will play Sunday afternoon against the winners of the Saturday match for final honors.

Bead Superstition

Alum beads, esteemed to be an efficacious charm against the evil eye, were largely worn by children, and in a town of Suffolk, England, there is said to have dwelt a witch who possessed a pair of ebony beads, stated to have come from the Holy Land, and to have been sanctified at Rome. To her there repaired many a mother when her child was sick, in the hope that through the prayers of the ebony beads would be conjured away the evil spirit.

New Tunnel Hits Wider Vein of Ore

Winter Creek Mine Development Encouraging as Work Proceeds

A report from the Wintercreek Mine at Roberts Camp, is to the effect that in opening up a new tunnel at a lower level, a four-and-a-half-foot vein of ore has been struck, which, according to Mr. Roberts, is of a higher grade than anticipated.

Mr. Roberts states also that E. W. Mitton, who with Chas. W. Brown of Los Angeles, leased the camp and mine from Mr. Roberts, has disposed of his interests to Mr. Brown and a brother of Mr. Brown who has recently arrived in California from the east.

The company now has several men at work and with an air compressor working steadily, great progress is being made in the mining operations.

Wheeling Declares Summer Business Continues Good

Albert Wheeling thought he would take advantage of the dull season to do some rearranging in his hardware store. The dull season failed to materialize—or else the new arrangement of the display is so attractive that it has drawn a rush of business. At any rate, he found it difficult to get time for the work although it is about completed. Nearly every item of merchandise is now so placed that the customer can get to it for examination without assistance. The appearance of the store is much improved and many steps will be saved in the course of a day's work.

Faint-hearted residents of Altadena sent in a call to the police station the other night, requesting officers to come out and "lay" a noisy spirit that was cutting capers in an Altadena cemetery. The officers found a wee dog, lost and forlorn, which was causing all the commotion.

Room for gentlemen or legislators.—Ad in the Baton Rouge (La.) State Times.

Canyon Pool To Be Built By District

Canyon Property Owners to Petition Council for Improvement

Undaunted by defeat of the pool bonds, the people of Sierra Madre Canyon propose to go ahead with the canyon pool project and pay for it themselves. They do not even intend to hold a bond election but will form an assessment district to pay for the improvement.

Petitions asking the city council to establish the improvement district under the most suitable statute have been in circulation since Tuesday's election by Miss Laura Cadmus and J. P. Nash. They report everybody ready and willing to sign up. More than 150 signatures have already been secured locally, with many property owners now out of town. Copies of the petition will be taken to Los Angeles and Long Beach where many property owners reside.

The proposed improvement district would include the Canyon Park district, or Tract No. 2456. The project calls for the spending of \$7,600, the same amount asked at the bond election. With nearly 500 lots in the tract, this amount spread over a 10-year period, would be negligible.

Comfort is only one of the many satisfactions you derive from looking your best.

Rev. R. B. Larkin Will Preach Here Sunday Morning

Rev. Ralph B. Larkin of Claremont will preach at the Congregational Church next Sunday morning. The pastor, Rev. A. O. Pritchard, begins his vacation and will not be in the pulpit again until September. Mr. Larkin has many admirers here by reason of the series of Sunday evening talks on religion and science which he gave here last spring. Sunday school will convene as usual at 9:30 a. m.
